Animal Classification
Canine

Brief Description of Injury
Facial wound in the lip

Case Report Reference Number
Case 6 - USA

## Case Presentation

Working racoon terrier who got into a fight with 2 Racoons and suffered a facial wound in the lip.

## COPPER HAWK

Natural Animal First Aid

## Case Report

## Treatment

The wound was initially topical cleaned and Copperhawk was applied twice daily for 7 days.

## Conclusion

These bite wounds nearly always get infected but the absence of clinical infection and the regrowth of pigmented hair are remarkable.
